

About the Wood and Finish

This product has been carefully crafted of: MDF, solid pine wood and/or pine veneers. These materials derive from plantations, a renewable and well managed forest, therefore, not endangering the environment. The highest quality standards have been implemented to assure a sturdy and reliable product. Due to the natural variances in the

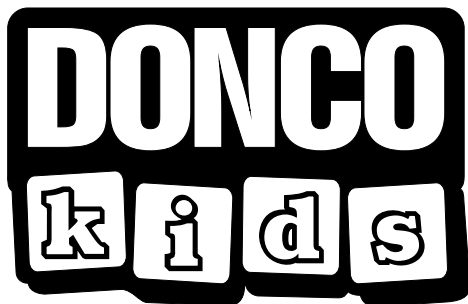

graining of wood, you may notice subtle differences in the shading and tone of the color stain, warp, holes, wood knots and also small cracks. This is not a defect.

But rather a result of the natural beauty of the wood itself.

Care and maintenance:

Dust when needed using a smooth, dry cloth. Household furniture polish can be used occasionally to restore luster.

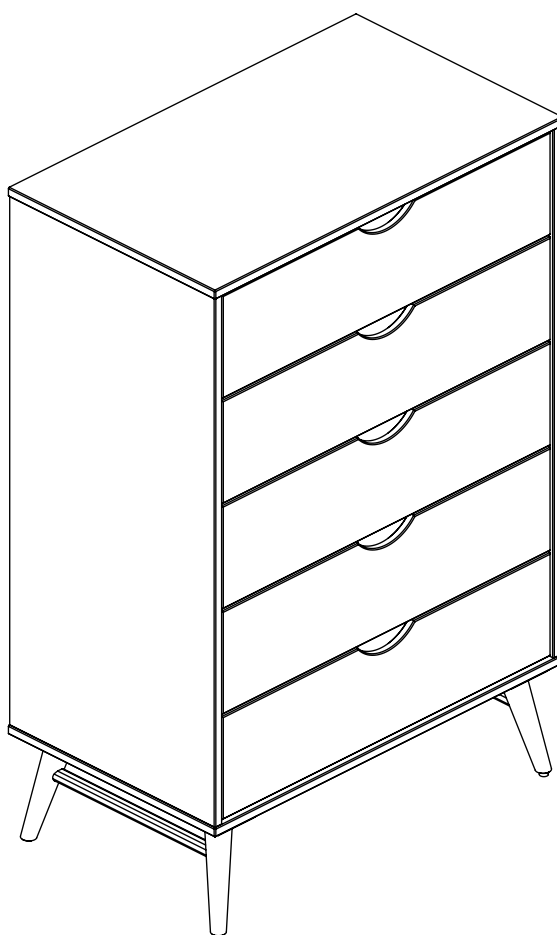

Fort Worth, Texas 76140

ASSEMBLY INSTRUCTIONS

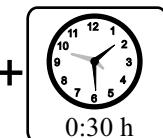

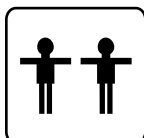

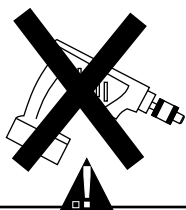

2743 5 DRAWERS CHEST

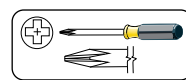

Thank you for purchasing this quality product. Be sure to check all packing material carefully for small parts which may have come loose inside the carton during shipment. Separate, identify and count all parts and hardware.

01 Important Instructions for Assembling the Legs of the Drawer Chest

To avoid damage to the legs during assembly and handling, please follow these guidelines:
Attachment of the Legs: Ensure that each leg is securely attached according to the provided instructions. Check that all screws are tightly fastened to ensure the legs' stability.

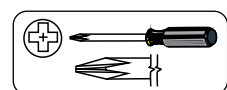

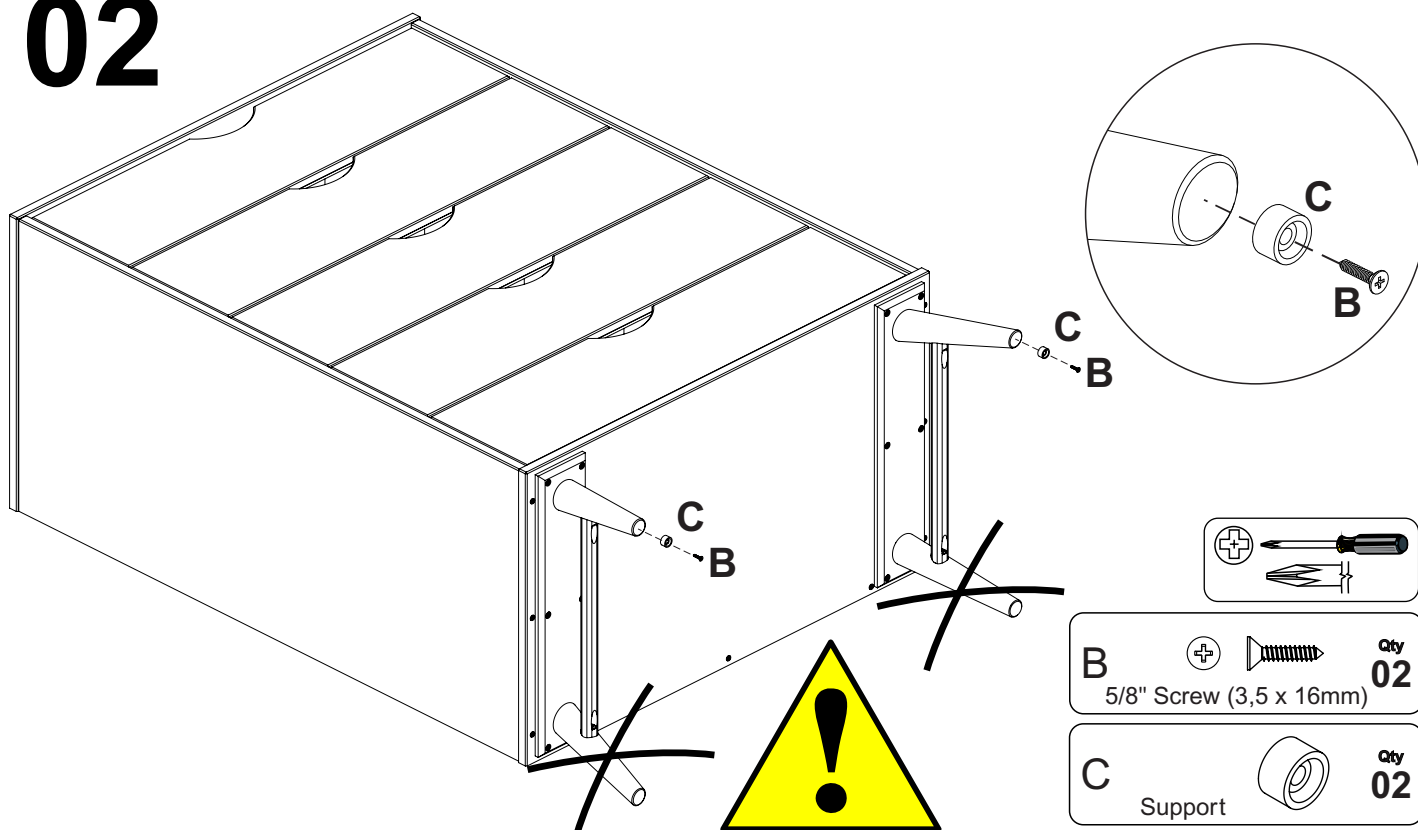

PLEASE ASSEMBLE ON THE GROUND, BUT FIRST PLACE SOME PROTECTIVE MATERIAL, SUCH AS A CARDBOARD BOX OR A RUG, ON THE FLOOR TO PREVENT ANY DAMAGE.

02

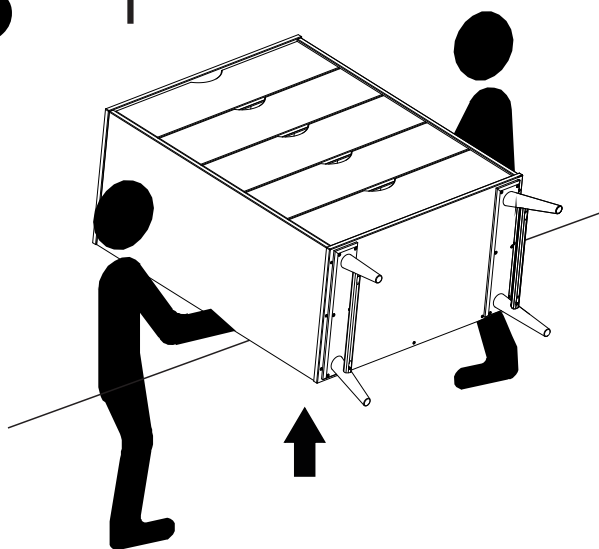

B  5/8" Screw (3,5 x 16mm) Qty 02

C  Support Qty 02

03

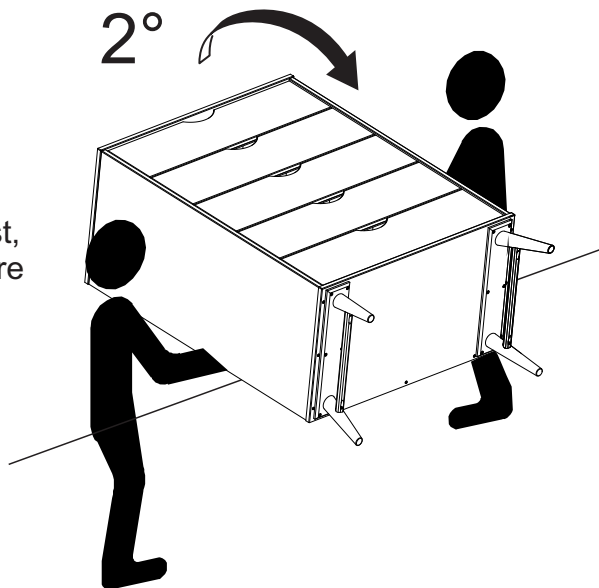

1°

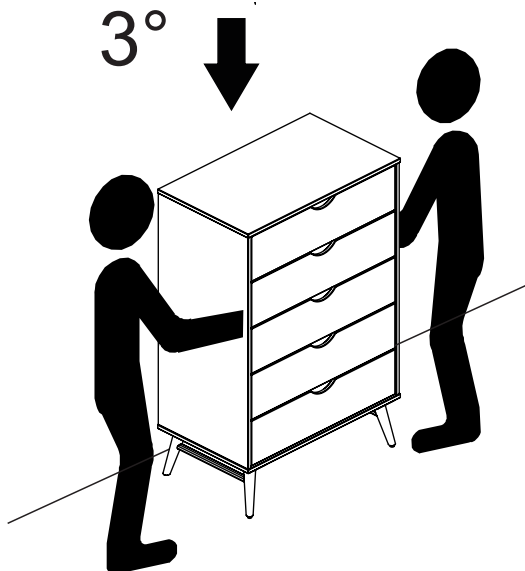

Lifting with Two People: For added safety and to protect the furniture, it is recommended that two people lift the drawer chest and place it in the correct position. This helps to prevent damage to the legs and reduces the risk of accidents.

Handling and Moving: When moving the drawer chest, avoid lifting it by the legs or applying excessive pressure on them. Instead, lift the product by the main frame or base to prevent the legs from bending or breaking under the weight.

2°

3°

Avoid Dragging on the Floor: When repositioning the drawer chest, avoid dragging it across the floor, as this can cause damage or even break the legs. Always lift the furniture to move it, thereby protecting both the legs and the floor.

By following these steps, you help ensure that the legs remain secure and reduce the risk of damage during assembly and movement.
